3 What factors contribute to Australia having one of the highest standards of animal welfare in the world?

Live export quiz

ANSWERS

Multiple choice

- ① a) 1829
- ② c) 13,000
- ③ TRUE
- ④ Order below:

PREPARATION → LOADING → VOYAGE → DISCHARGE → CONSUMER/RETAIL

- ⑤ TRUE

Short answer

- ① Animals that are fit to load are selected for livestock export at preparation.
- ②
 1. The Australian Standards for the Export of Livestock (ASEL)
 2. Exporter Supply Chain Assurance System (ESCAS)ASEL regulates supply chain from sourcing livestock on farms to disembarkation overseas. ESCAS regulates supply chain from disembarkation to point of confirmed death overseas.
- ③ Livestock size and weight.
- ④ Jobs, income, supporting regional communities
- ⑤ Nutrition (protein and dairy products), genetics, food security, meet cultural/religious requirements, lack of cold chain infrastructure, don't have the climate/production systems to meet their own food consumption demand

Live export quiz

ANSWERS

LONG ANSWER (discussion ideas)

These questions are open ended and may require further research. The following are suggested sources:

- www.thelivestockcollective.com.au
- www.livecorp.com.au

- 1 • As mentioned before, benefits to Australia
 - Australia's climate and production systems
 - Favourable option for overseas markets due to our safe, quality livestock

- 2 • As mentioned before, benefits to importing countries

- 3 • Our long-standing history and experience in exporting animals
 - The care that people take along the supply chain
 - The sophisticated regulatory frameworks (see below)

1. The Australian Standards for the Export of Livestock (ASEL)

2. Exporter Supply Chain Assurance System (ESCAS)

ASEL regulates supply chain from sourcing livestock on farms to disembarkation overseas. ESCAS regulates supply chain from disembarkation to point of confirmed death overseas.
